Arizona is home to more than 500,000 service members, veterans and their families. Many of these valued members of our community turn to their faith for support, healing and connection. That is why the Arizona Coalition for Military Families is partnering with members of the faith community around the state to build the Be Connected Faith Network.

Arizona Faith Gatherings host a variety of speakers and feature dynamic contemporary topics and engaging conversations. Gatherings happen each quarter and are open to all community members interested in expanding faith-based support to service members, veterans, and their families.

Gather

with active supporters and faith community leaders in order to learn how to better support your military-connected members.

Collaborate

with others to make an even bigger impact in our community.

Hear

about how faith communities can play a major role in the mental health of the people in their communities. Join us as our speaker, Pastor Sanghoon Yoo, MDiv., MSW, shares the insights he has gained in his experience in working with faith community leaders to help them approach the sensitive topic of mental health. The key, according to Pastor Yoo, is to create a "culture of belonging" in the faith community where honest conversations of mental health can be safely held.

Special thanks to the Governor's Office of Youth, Faith, and Family and the Arizona Department of Veterans' Services for continued partnership and support.
