

Coaching Into Connection

For Arizona service members, veterans & their family members

60% of Americans feel lonely. Social isolation & disconnectedness is common. If you or someone you care about feels disconnected, Be Connected can help.

The Be Connected **Coaching Into Connection** program is here to support Arizona service members, veterans & their family members.

Would you like to be more connected but don't know where to start? Does it feel too overwhelming to try new things alone? Do you wish you had someone to help you strengthen your support/social network?

Our Connection Coaches are military veterans who work with participants to:

- ✓ Identify opportunities for connection to family, friends and community.
- ✓ Create a personalized connection plan according to the individual interests of the participant (e.g., recreational activities, community events, sports, hobbies, support groups, spirituality, volunteering, and learning opportunities).
- ✓ Address any barriers to connection (e.g., transportation and cost).
- ✓ Explore new opportunities for connection.

Services are available statewide at no cost to participants.

Interested in Coaching Into Connection for you or someone you know? Complete a referral form or call 866-429-8387 to connect with one of our Care Navigators. They will help determine the best combination of services for your situation.
